

FOR IMMEDIATE RELEASE:

YOUNG LOVERS: The 'MIDNIGHT TWILIGHT' collection

MIDNIGHT TWILIGHT is the new highly anticipated third collection from Sydney label 'YOUNG LOVERS'.

Created to oppose the movements of the un-radical majority, this collection of prints celebrates the madness of midnight love and all that surrounds it. It is for the sleepless ones who dare to not follow. It is the Young Lovers who will take over the city by night.

Touted as one of the top new labels to watch in 2008, 'Young Lovers' has become the name on the lips of the devotees, midnight marauders and heartbeat-of-the-pavement kids from Sydney to London, New York to Tokyo.

Colliding at the intersection of art and music, twilight and midnight, future and past, *Young Lovers* offers a refreshingly unique vision of modern street fashion. The latest *Young Lovers* collection: '*Midnight Twilight*' is its boldest to date.

Founded in 2005 by Finnish-Australian designer Luke Nuto, *Young Lovers* rejects temporary fashion trends in order to create classics - tees that are designed to look even better 10 years from now - as you look back to the heady days and swirling nights from which they came.

Made from the finest cotton and strictly limited to 100 of each, every *Young Lovers* piece is a limited edition classic destined to become your next old favourite.
